Like ball bearings

The mica in Mica Axle Grease fills up all roughness in spindles and bearings, keeps them cool, slippery and smooth as glass. Then the grease works better and lasts twice as long. No hot boxes. Just like putting ball bearings on your wagon. Ask your dealer. Buy by the pail.

MOTHER'S DAY WILL BE OBSERVED HERE

Members of the Churches to Hold Special Service — Respect to Mothers Subject of Paper to be Read at Y.L.M.I.A.

All of the Ontario churches will observe Mothers' Day next Sunday. The pastors will dwell on the sacred sentiments associated with the love and faithfulness of the mothers of the land and special musical programs will be given.

At the gathering of the Y. L. M. I. A. the following paper on "Respect to Mothers" will be read by Mrs. Zula Christiansen:

Respect to Mothers.—Just what does that mean and how can we show it? Oh! there are thousands of ways to show our respect to Mother and thousands of ways to show our dear Mothers what it means. But do we seldom trouble ourselves very much about showing her respect. I don't mean we openly disrespect her, we do not, that is the vast majority of people.

But are we constantly on the lookout to help her and show her how we love her and respect her; for surely we all love Mother. How shocked we would be if any one told us we didn't, yet look at the way Mothers are treated many, many times.

Mother is the one that is on the lookout for us, she has her children on her mind constantly and unconsciously night and day. When we first found ourselves in this large world and thought we were alone, and sent out a loud cry, whose heart went out to the little one? Was it Doctor's or Nurse's? No, it was the Mother's. She well understood the first cry was for help and her baby was afraid. She could hardly wait 'till the little one was safe in her arms, and how she cuddles and croones to it 'till it forgets its fears. And so on through life, as we grow each day, Mother understands our woes and kisses away all pain when we are hurt. It is mother who is anxious about our future, she who would have us do great things, who teaches us to try to do better and to love one another.

And how her heart swells with pride as we advance and do good deeds. Does she mind if she is forgotten? Yes she may, but no one knows it. She never complains. But if we are dealt a blow in our upward career then we turn to her for comfort and encouragement and every Mother can encourage her girl or boy in her own way, where others fail. Those who are young are mostly looking for their own pleasure. They are often self-assertive, entirely disregarding the Mother's gentle warning, deeming them old foggy and thinking they are always harping at them. But this is not so, she is looking out for the good of our welfare, she knows more than you think she does, she understands what is ahead of you in the path you are treading. So young folks, pay very strict attention to the advice of your Mother. This is one way to show respect. Listen carefully to every word, for they are great pearls for you. Never forget them. She understands, she knows what is best. Show her the respect due to her for all the years of toil and care for you when you were helpless little tots. Would you not turn to her in sickness or sorrow? Then why not share your pleasures with her, tell your Mother your little secrets. That would be a great and beautiful way to show your love and respect for her.

Then: If she warns you, listen to her. It will be best for you.

Love your Mother, go out of your way to make it pleasant for her at times, at all times if possible.

There is no love like Mothers' love no other worship abides and endures faithful, unselfish and patient like Mothers'.

When the loved one has erred and roamed far from the path of right it is dear Mother that kneels to the Heavenly Father and asks for their forgiveness and pleads for their soul and takes the erring one in her arm on their return and thanks God for
